· Warsaw, Poland

PROFILE

Product Designer with 9.5 years of experience designing complex B2B SaaS products — from analytics tools and data-intensive workflows to enterprise platforms for technical users. Works independently from problem framing through shipped solution, without waiting for ready-made briefs. Uses AI tools (Claude, Figma Make) as a natural part of daily design workflow. Validated by SUS 83.1 (Excellent) and SUS 72.5 (Good) on two deployed enterprise tools.

EXPERIENCE

Senior Product Designer

Accenture · England, Remote · Dec 2022 – Present

Sole designer · 4 complex enterprise tools for aeronautical engineers · Discovery → high-fidelity → deployment

- Led full design process independently across 4 complex enterprise products — from problem framing and discovery through ideation, prototyping and high-fidelity delivery, consistently without a formal brief.
- Translated complex, data-heavy technical workflows into clear, scalable interfaces for expert users who do not tolerate ambiguity in their tools.
- Identified root problems by directly immersing in specialist workflows — separating genuine user needs from years of accumulated workarounds.
- Validated design decisions through structured usability testing: SUS 83.1 (Excellent) and SUS 72.5 (Good).
- Contributed to Design System

Product Designer

Egnyte · USA, Remote · May 2022 – Dec 2022

B2B SaaS · Enterprise file management and automation platform · Desktop, iOS/Android, mobile web

- Owned full design cycle for a B2B SaaS platform across four surfaces — designed scalable flows connecting platform capabilities for enterprise teams.
- Led discovery research — 7 in-depth user interviews — that surfaced unmet needs and directly redirected product roadmap priorities.
- Redesigned filter architecture for a complex internal categorisation tool through card sorting, reverse tree testing and usability tests on competing prototypes.

Product Designer

Allegro · Poland, Remote · Aug 2021 – Apr 2022

Internal tooling · Data operations platform · One of Poland's largest e-commerce platforms

- Designed and optimised internal data workflow tools — diagnosed root problems rather than iterating on broken patterns, delivered a validated duplicate-detection feature as a scalable solution.

Product Designer

Bank Pekao S.A. · Poland, Remote · Apr 2020 – Aug 2021

One of Poland's largest banks · Complex enterprise digital platform

- Redesigned information architecture and navigation — resolved a multi-stakeholder conflict through a research-led structural solution, presented directly to senior leadership.

Product Designer

Bank Millennium · Poland, On-site · Mar 2019 – Apr 2020

- Designed digital banking interfaces across mobile and web; contributed to usability testing and developer handoff within an Agile team.

Junior Product Designer → Product Designer

WP Pilot · Poland, On-site · Apr 2017 – Feb 2019

- Grew from Junior to Designer; designed cross-platform streaming experience across Android, iOS, desktop and mobile web.

SKILLS

Design: Product design · Information Architecture · Interaction design · Prototyping · Usability Testing · Design Systems · Developer Handoff

Research: Expert interviews · Discovery workshops · Workflow mapping · Card sorting · Tree testing · Qualitative synthesis

AI workflow: Claude · Figma Make · AI-assisted ideation, synthesis and prototyping

Tools: Figma · FigJam · Miro · Jira · Confluence

EDUCATION

MFA, Graphic Design · Academy of Fine Arts, Warsaw · 2010–2016

LANGUAGES

Polish: Native · English: C1 (advanced proficiency)
